NIEDAX GROUP COMPLEMENTARY BRANDS

Thanks to a powerful and flexible 100% French production facility, we develop cable trays and support systems which respond to all technical **specifications** and all **environmental challenges**.

The range of products from **CES** and **Tolmega**, in addition to the materials and expertise of **Ebo Systems**, **Niedax**, **Kleinhuis** and **Rico** ensure a solution for all your needs.

CES AND TOLMEGA A LONG STANDING COMBINED HISTORY

Today, NIEDAX France is France's preferred supplier of equipment systems for mechanical and electro-magnetic protection and of support structures for cables and electrical appliances.

But long before the creation of NIEDAX France, two major brands in the field of cable management shared the market: CES and TOLMEGA.

Tolmega

1960

Creation of **Tolartois**, specialist of perforated metal sheets and gratings.

1969

Tolartois joins **Gantois Group**, the industrial reference in the field of woven and perforated steel sheets.

2002

Birth of **Tolmega**, which name refers to the 3 entities of Gantois Group: **TOLARTOIS**, **MECAFABLON** and **GANTOIS**.

CES

1952

Birth of the **Constructions Electriques de la Seine** near Paris.

1958

Appearance of the first cable trays and cable trunkings.

1988

CES export their know how to Germany and start **KT**.

KT
KABELTRÄGER - GMBH

NIEDAX France

The synthesis of two French cable tray Experts

2005

CES and
Tolmega both
join HAGER
Group.

2007

This union of brands
gives birth to **CTS**,
Cable Tray
System.

2010

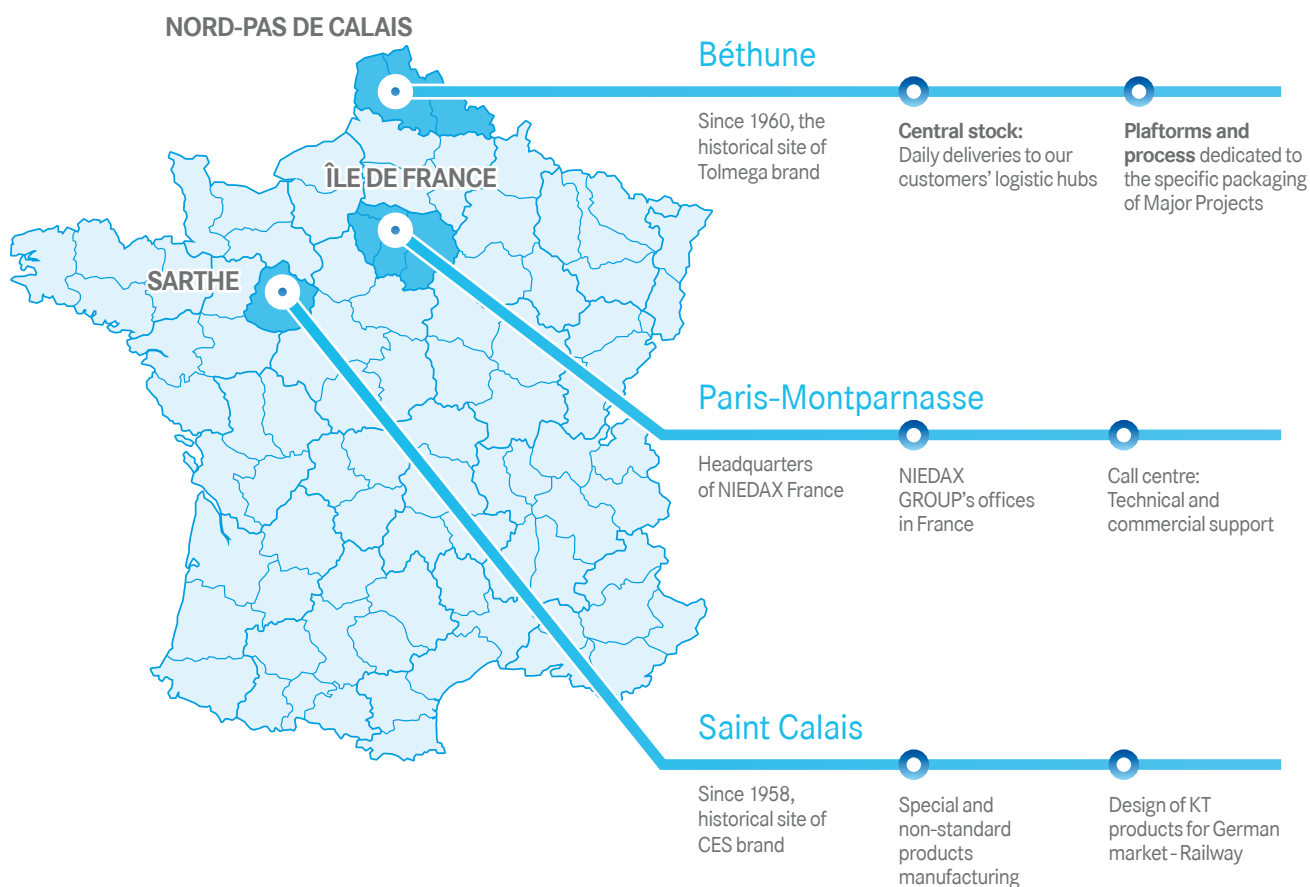

CTS joins NIEDAX Group
 NIEDAX GROUP

2014

CTS becomes
NIEDAX
France 

A close-up, low-angle shot of industrial machinery. A series of large, polished metal rollers are arranged in a row, guiding a long, perforated metal strip. The strip has a series of rectangular holes and is moving from the background towards the foreground. The lighting is dramatic, with strong highlights on the metallic surfaces and deep shadows in the background.
